## Dear Sir/Madam

*I am currently a first-year software engineering student at INSAT, and am looking for a summer internship position. I learned about FIS via linkedin and after checking FIS website, I have immersed myself in its groundbreaking work in the modern financial world and I was really inspired by the impact you are willing to bring into the financial market.*

*As you would see below in my resume, I am open to work in the fields of database technologies, software engineering or web development that involves technologies like JAVA, C/C++ ,SQL/PL,PHP and JavaScript and frameworks like Angular 7 , Spring Boot and symfony. I am also a very motivated , team-oriented and flexible person who enjoys working with new technologies.*

*My academic experience has given me a rich mixture of both theoretical and practical sides of my field. For example software prototyping courses has helped me gain experience in developing UML diagrams and using design patterns efficiently .*

*I am currently leaning about Microsoft technologies like asp.Net along with c# and shall be implementing them in a project with my team very soon.*

*In closing, I am thrilled at the possibility of being a summer trainee at FIS which I consider as an innovative & ambitious company. I would love the opportunity to meet with you and I appreciate your consideration and look forward to hearing from you.*

*Warmest regards,*

*Emna ksontini*
